

“DOL's Emergency Temporary Standard and the Federal Contractor EO - What Now?” National Association of College and University Attorneys

Event

November 11, 2021

Jenner & Block Partner Ishan K. Bhabha will delve into the legal issues that colleges and universities face in light of the new standard to protect workers from the spread of COVID-19. The standard requires a broad range of employers to implement mandatory vaccination or frequent testing coupled with masking requirements. The standard is similar to the executive order issued in September related to federal contractors, and campus counsel must parse through these federal directives, determining which applies and how to work through challenges related to them. Mr. Bhabha is co-chair of the firm's Education Practice and has substantial experience representing and counseling institutions of higher education. This 30-minute briefing will be held at 3 pm Eastern. Please [click here](#) to learn more and register.
