By: David M. Kroeger

In this special report on managing risk, Partner David Kroeger describes the exposures that businesses face as they navigate the ESG “minefield.” Acknowledging the lack of consensus “as to what ESG actually is,” he points to one certainty: “ESG has led and will continue to lead to litigation.” Ultimately, David suggests that “D&O liability insurance can help to protect private companies and corporate D&Os, managers, and even employees in the event they are alleged to have performed wrongful acts in their organisational capacities.”
