In an article for eBook “Managing and Resolving Commercial Disputes 2023,” Partner David Kroeger and Department Counsel Cathy Doyle discuss the role of liability insurance in alleviating some of the perils of litigation, key concepts in insurance law, and tips to help maximize the ability to recover under potentially applicable liability insurance policies.

“Being sued is an unwelcome prospect for any company. Having the right liability insurance in place—and understanding how to maximize use of that coverage—can greatly reduce or even eliminate the cost and uncertainty of litigation. Thoughtful planning at the time of purchasing insurance, receiving a claim against your company, and developing litigation strategy can make all the difference,” the authors write.

The eBook, which is published by Financier Worldwide, provides insight into commercial disputes, including current trends in litigation, arbitration, and mediation.
