

Center for Democracy & Technology's (CDT) Tech Prom

Event

October 5, 2022

Jenner & Block's Data Privacy and Cybersecurity Practice and technology-focused client teams are proud to sponsor the Center for Democracy & Technology's (CDT) Tech Prom. The annual event supports CDT's efforts "advance data privacy, promote online expression, and work to reduce bias and inequality in algorithms and limit government surveillance."

Led by Partners David Bitkower, Madeleine V. Findley, and Shoba Pillay, our Data Privacy and Cybersecurity team provides holistic, proactive advice to clients. We work with clients to establish privacy programs, update privacy policies, understand regulatory frameworks, perform risk assessments, assess cybersecurity needs, respond to and manage data incidents, interface with regulators and represent our clients' interests in the courtroom.
