

# “Generative AI in the Legal Profession: Uses, Benefits and Dangers,” ABA National Legal Malpractice Conference

## Event

September 21, 2023

Speakers: John R. Storino

Partner John Storino will join a panel exploring the generative AI tools that are geared toward and available for use in the legal profession. He and other panelists will discuss the critical legal and contractual considerations for the acquisition of these tools, potential pitfalls and dangers, ethical rules implicated by their use, and the malpractice risks they present.

This conference is designed to help legal liability, malpractice, and insurance professionals explore the dynamic legal liability field and understand how changes affect lawyers in this field. To learn more and register, [click here](#).

John is a Co-Chair of Jenner’s Law Firms and Professional Services Practice who defends firms facing legal malpractice, breach of fiduciary duty, billing fraud, conflicts of interest, and breach of contract claims.
